MULE

EN

RELIABLE COMPANION

The suspended and single-wheeled luggage trailer is a unique product for off-road and on-road cycling and ideal for bicycle touring. For mountain bikers who are crossing the Alps or those who just want to take their bike on an unsupported trip with luggage, the Mule is the perfect companion. Having reached your destination the Mule can easily be detached and the mountain bike can be used for local trips. The Mule is compatible with 29" wheels. With a width of only 45 cm, a weight of just 6.7 kg and the single-wheeled design, even serpentine can be easily ridden. As a suitable accessory we offer a waterproof duffle bag from Ortlieb with 85 l capacity. Curious? www.en.tout-terrain.de

FEATURES

Maximum maneuverability thanks to CNC-manufactured and ball-bearing joint

Can be easily disassembled and stored flat

“Where bike and rider fit through, the Mule fits as well. With its extreme ground clearance, it glides over the narrowest paths and the worst terrain.”

Adjustable spring travel of 160 mm (off-road) or 120 mm (street)

Single-wheeled design enables dynamic riding qualities with a load

Center of gravity optimization of luggage for different usage models.

6.7 kg
without bag
